Forecast for Wednesday 29 Sep 2021

Weather: Mainly dry overnight with long clear spells developing. A few showers, increasingly wintry above Munro level, possible in the west around the middle of the day, otherwise dry with some long spells of sunshine developing. Dry and clear through the evening.

Chance of cloud free mountain/hill tops above 800m: Around 75% in far west, otherwise close to 100%

Visibility: Occasional cloud above 750m expected in the far west. Otherwise visibility very good or excellent with, mainly in the west, only brief reductions due to showers.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Sub-zero feels like temperatures above Munro level.

Forecast for Thursday 30 Sep 2021

Weather: Cloud and rain, preceded briefly by sleet or wet snow on highest summits, spreading east overnight, the rain occasionally heavy towards dawn. The occasionally heavy rain clears east through the morning with sunny spells and showers following, the showers perhaps merging to give some longer spells of rain in west.

Maximum wind: Southerly winds increase to 25-35mph, with gusts around 50mph over ridges and summits, through the early hours will turn more southwesterly soon after dawn and gradually ease 15-20mph through the afternoon.

Chance of cloud free mountain/hill tops above 800m: Little chance at first, and later in west, otherwise around 60%

Visibility: Periods or persistent cloud above about 600m, with patches below, at first and again later in the west, otherwise cloud more occasional above about 600-750m. Otherwise visibility, very good falling to several kilometres in rain and showers.

Temperature: **Glens:** Around plus 4 Celsius soon after midnight rising to plus 14 Celsius by day
At 800m: Plus 5 Celsius, with significant wind-chill effect especially at first
Freezing level: Around 1200m soon rising above summits.
